```
# STAT545-hw01-Griffith-Cody
# Hey Vincenzo!
#
# I'm editing this within the browser.
#
# Now I'm editing this locally.
#
# Here is some latex code

$$\int_0^{\infty} e^{-x} dx = 1$$

# I didn't know that RStudio can display latex within the notebook. That is pretty cool.

#Now here is some R code.

x<-rnorm(1000)
y<-rnorm(1000)
example<-plot(x,y)
```

```
dev.print(pdf, "hw1_example.pdf")
```

```
## pdf
```

```
## 2
```

```
# [This goes to Stat 545 homepage](stat545.com)
```

```
#
```

```
# I will now try to run this in R Markdown, although I don't have a functional  $\LaTeX$  distribution at
```
